

## MISSION STATEMENT

The GOAC Art Council has been formed to oversee the replacement of generic paintings that have adorned our clubhouse since its inception with original paintings, photographs, and decorative art created by artisans in our community.

It is the goal of this council to develop a database of artwork produced by our residents so that we may replace existing wall hangings. Our primary goal with this program is to foster and showcase the arts and talents of the artisans in our community while improving the aesthetics of our clubhouse.
